

# ELECTION PROTECTION TRAINING

Let's create massive and safe voter turnout to defend against attempts to deceive, disrupt and deny our elections.

Threats to our democracy and the 2026 election are unprecedented. Anti-democratic actions of this administration include attempts to reduce voter eligibility, threats to Vote-by-Mail, cuts to the Postal Service slowing delivery, intimidation at drop boxes, interference with vote-counting processes, and convincing people that voting is pointless or hopeless. It is neither!

Join us for a hopeful and energizing call to action—ensure a free, fair, and highly participatory election in November.

## Learn ways YOU can help to:

- Combat election disinformation
- Ensure that voters are not intimidated
- Help prevent election drop boxes from being tampered with
- Prepare to respond if/when emergencies pop up
